OBJECTIVE

I'm a student and entry data scientist. Now I'm focused on immersing myself in Data Sceince, obtaining fundamental knowledge and getting job experience. Also I'm intrested in algorithms and math.

My personal advantages: quick adaptation to changing environment, good communication skills, patience in solving problems, normal perception of criticism, passion to my business.

EDUCATION

National Nuclear Research University MEPhI   **Sep 2021 - Dec 2022**
Bachelor's degree,
Applied Mathematics and Computer Science

Mathematics: Mathematical Analysis, Linear Algebra, Vector and Tensor Analysis.
Discrete Math: Logic, Graph Theory, Combinatorics, Theory of algorithms.
Computer Science: Algorithms and Data Structures, Informatics, Object-Oriented Programming.

Ecole 42 / School 21   **Nov 2022 - Present**
School of programming with p2p methodology. There i do projects and review code.
My current progress: C, C++ and DevOps branches - done.
In progress: Python branch. In the near future I will start a branch on data science and data science healthcare.

National Nuclear Research University MEPhI   **Jan 2023 - Present**
Bachelor's degree,
Software Engineering

Mathematics: Theory of Probability, Complex Analysis, Linear Algebra, Logic Calculus.
Other: Operating Systems and Networks.

SKILLS

DevOps[basics]:	Docker, Docker compose, Linux, Shell scripting, VirtualBox, Networks.
Python:	Pandas, Matplotlib, Numpy, Scikit, Tensorflow, Pytorch, Scykit-learn, Sci-Py.
Other Programming Languages:	C, C++(STL, QT).
Other:	SQL[basics], Git, Jupyter, Make
Languages:	Russian - native, English - B2, Deutsch - A1.
